

Certificate

As part of its commitment to environmental responsibility HÜBNER-LEE GmbH & Co. KG has offset the CO₂-equivalent emissions which will result from the production of **TTE® Multidrain^{PLUS}** in the period from June 30, 2023 until September 30, 2024.

2.650 t CO₂e

At the end of 2024, the actual emissions will be determined and offset against the next compensation period. The results will be announced.

The calculated CO₂-equivalents were determined within the framework of an independently audited EPD - Environmental Product Declaration. The EPD certification, issued by IBU - Institute for Building and Environment, is valid until September 2026.

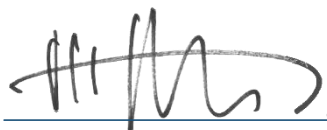

These emissions were offset utilizing carbon credits from the Gold Standard climate protection projects:

Clean Energy with Hydropower, Turkiye (21%)

Clean Energy with Wind Power, India (79%)

and the corresponding emission reduction certificates have been permanently retired.
